Hluhluwe-Imfolozi Game Reserve was established in 1895, the oldest game park in Africa. The Park covers about 96 000 hectares and contains a vast diversity of wildlife and vegetation. It is particularly famous for its conservation of black and white rhino – there are hundreds of endangered black rhino and the largest population of white rhino in the world.

The rest of the Big Five can also be seen here; buffalo, elephant, lion and leopard, as well as many other species including blue wildebeest, zebra, giraffe waterbuck, nyala, kudu, bushbuck, warthog, cheetah, hyena and jackal and thousands of impala. More than 300 species of birds have been recorded in the area, making it one of the prime birding destinations in South Africa.

Swaziland

Swaziland is the smallest country in the southern hemisphere, and is one of only three monarchies left in Africa. The kingdom has been independent from the Commonwealth since 1968, ruled by a King who is appointed in accordance with Swazi tradition. If he is absent, or unable to perform his duties for any reason, the Queen Mother acts on his behalf. In the 1980s this tiny country made international headlines when it was ruled by two queens in succession. Following the death of King Sobhuza II, the Queen regent Dzeliwe Shongwe ruled between 1982 and 1983, and months later Ntombi Twala became the country's second female Head of State since independence.

Swaziland is landlocked, bordered on all sides by South Africa except for roughly 100km of border with Mozambique in the east. Its natural resources are extremely well managed, and despite the country's size it lays claim to some of the best game reserves and national parks in southern Africa. Elephants, lions and rhinos have been reintroduced to the area after being they disappeared due to hunting. It is also well-known for its prolific birdlife.

Day 3 Swaziland – Mlilwane Wildlife Sanctuary

Mlilwane Wildlife Sanctuary is Swaziland's oldest and covers 4,560 hectares. As there are no large predators in this area and there are a number of self-guided hikes available. Hiking is an excellent way of interacting with the flora and fauna and comes highly recommended. In addition to the beautiful scenery we also have traditional Swazi dancing to look forward to after dinner. *Optional Activities: Mountain Biking, Hiking, Guided Birding walks, Horse Riding and Sunset Game Drive.*

Mlilwane Wildlife Sanctuary

Mlilwane was the first wildlife sanctuary in Swaziland, started in the 1950's by a local farmer, Ted Reilly, who has subsequently been instrumental in the conservation of Swaziland's natural heritage for many years. It is a beautiful, secluded sanctuary situated in Swaziland's "Valley of Heaven", the Ezulwini Valley, in between Mbabane and Manzini. The Sanctuary covers 4 560 hectares and comprises of a southern and northern section. The southern section is predominately open grassland plains with middleveld vegetation, stretching up onto the striking Nyonyane Mountain with its exposed granite peak known as the "Rock of Execution". Nyonyane is of great historical significance - it is where ancient San communities once lived and the Swazi Royal family are buried there to this day. Behind these mountains, the spectacular Mantenga waterfall and beautiful Usushwana Valley form the divide,

before stretching up to northern section, which includes one of the highest surrounding points at Lumphohlo. From the western boundary, the huge Usutu Forest provides a dramatic backdrop stretching into the distant hills. Tourist activities are concentrated in the southern section, with only guided trails entering the pristine mountains of the north. Mlilwane means "Little Fire", derived from the numerous fires started by lightning strikes on the granite of Mlilwane Hill.

Day 4/5 South Africa - Kruger National Park

We return to South Africa and drive to the Kruger NP for two unforgettable days of game viewing. Kruger National Park is home to Africa's Big 5 as well as a multitude of other beautiful African animals, both small and large. Kruger National Park

Established in 1898 to protect the wildlife of the South African Lowveld, this national park of nearly 2 million hectares is unrivalled in the diversity of its wildlife and a world leader in advanced environmental management techniques and policies. Approximately 145 mammal species, a list of over 500 bird species, some of which are not to be found elsewhere in South Africa, and 336 tree species occur in the park.

When the first tourist cars visited the park in 1927, they made their own camps in thorn-bush enclosures and had to carry weapons to protect themselves from predators. During the Second World War the park was closed to the public, and reopened in 1946 under new management. Today it is one of the most famous safari destinations in the world with all the facilities that one would expect from a world class holiday destination, but it has retained the untamed, unspoilt environment where you can experience Africa just as you imagined it.

Day 6 Moholoholo Wildlife Rehabilitation Centre

Leaving the World's most famous nature conservation area behind, we travel to Moholoholo Wildlife Rehabilitation centre to meet some of the rescued animals before they are released back in to the wild. At our camp this evening we will be experiencing some typical South African cuisine while enjoying a traditional Song and Dance evening.

Moholoholo Wildlife Rehabilitation Centre

Moholoholo is nestled in a picturesque setting at the base of the Drakensberg escarpment in the Limpopo Province Lowveld of South Africa. Moholoholo has become a haven for the rehabilitation and care of abandoned, injured and poisoned wildlife. Wildlife is brought to the centre from all corners of South Africa, and once healthy enough are re-introduced into their natural

environments. Those creatures who cannot be returned to the wild due to the nature and extent of their injuries, are cared for at the centre and are used to educate the many people who visit each year, both from across South Africa and abroad. Another important function of the centre is breeding. Moholoholo have successfully bred and released into the wild the endangered Crowned Eagle, Serval and many others. The centre is a non-profit organization, relying completely on the support of the public.

Day 7 Panorama Route - Johannesburg

Today we travel along the Panorama Route, stopping for breathtaking views at Blyde River Canyon, God's Window and Bourke's Luck Potholes. The tour ends on arrival in Johannesburg, although most will enjoy an optional dinner on our last night together. *Optional Activities: Dinner Out.*

Meals:	Breakfast, Lunch
Accommodation:	Own Arrangements / Post tour accommodation can be booked through ShapShap.
Route:	Timbavati to Johannesburg. ±600 km
Travel time:	±9-10 hrs (Long Day)
Included Highlights:	Panorama Route, including God's Window, Blyde River Canyon & Bourkes Luck Potholes

Panorama Route

The Panorama route in Mpumalanga follows the edge of Blyde River Canyon, and includes some breathtaking views of the Three Rondavels, Bourke's Luck Potholes and the Pinnacle. Blyde River Canyon is the third largest canyon in the world, and got its name in 1840 ('blyde' meaning 'joyful') from the Voortrekkers who passed through on their way to Lorenzo Marques (now Mozambique). It is one of the most spectacular canyons in Africa and its cliffs rise between 600m-800m from the riverbed. Possibly the best view in the whole of the Blyde River Canyon is of the "Three Rondavels - three huge rock spirals rising out of the far wall of the canyon. Their tops appear to have a hut-like rounded roof. They are named after the Swazi Chief Maripi's wives - from the lowest to the highest, they are Magabolle, Mogoladikwe and Maserote.

Where the Blyde River and the Treur River meet, water erosion has formed one of the most remarkable geological phenomena in the country, known as 'Bourke's Luck Potholes'. Over thousands of years, surreal cylindrical rock sculptures created by whirling water have formed a series of dark pools which contrast artfully with the streaked white and yellow lichen covered rocks. Following the road and the Treur River south, there are further viewpoints; Wonder View, God's Window and the Pinnacle.

Johannesburg

Johannesburg is the largest and most populated city in South Africa, and the second largest city in Africa, after Cairo. Gold was discovered in the mineral-rich Witwatersrand in 1886 by an Australian prospector, George Harrison. This discovery started a major gold rush as fortune hunters came to the area from all over the world. A huge labour force of contract workers sprang up to work in the mines and within three years Johannesburg became the largest settlement in South Africa.

It is now the economic and financial core of the country, and although mining is no longer practiced within the city bounds, the headquarters of most of the mining companies can be found here.

Johannesburg is also known as the world's largest human-made forest, with over 10 million trees planted throughout the city.

Tour Ends

We will drop you off at Garden Court O.R. Tambo International Airport, www.southernsun.com/garden-court/or-tambo-international-airport/pages/overview.aspx.
